Clutch Adjustment

Clutch adjustment involves setting the correct amount of free play in the clutch linkage.

Too much free play can cause clutch drag, preventing the clutch from ever fully disengaging. In this case, the power flow is not completely cut off from the clutch and the engine could continue to propel the vehicle.

Too little free play can cause the clutch to slip. If this happens the throw out bearing rotates continually as it contacts the rotating pressure plate release levers, and it quickly wears out.

With enough pressure on the levers, the clutch slips, overheats, and becomes damaged requiring the clutch assembly to be replaced which is costly.

- Come in for a CLUTCH ADJUSTMENT or a REPLACEMENT if needed.
- Clutch replacement ESTIMATE for your truck is available at time of service.
- We service and replace all makes.

\$45.00

- If repairs are necessary, parts and labor will be at additional cost.

The Lonestar Truck Group has joined the Freightliner/Western Star Elite Support Dealer Network

ELITE SUPPORT – What is it?

It is an Elite group of Freightliner/Western Star authorized service outlets delivering a superior service experience, in a consistent manner, at a good value, as validated by the customer.

How does a dealer qualify?

Dealer participants must meet 129 defined standards and best practices and validated annually. Each facility is required to have a Continuous Improvement Coordinator on site to facilitate continuous improvement methodologies.

How do the customers benefit?

As a Certified Elite Support Dealer, we are required to demonstrate proficiency in 19 different areas such as Express Assessment, Service & Parts processes, Customer Follow-Up and Communication, Technical and Operational Training and Customer Amenities.

Our Commitment:

The Lonestar Truck Group is focused and committed to achieving ELITE SUPPORT status at each of our eleven locations.
